

# DH-CS4010-8ET-60

## 10-Port Cloud Managed Desktop Switch with 8-Port PoE

### **Series Overview**

Highly intuitive, the Smart Managed Switch can manage local networks. With the DoLynk Care platform, it can also perform cloud management. The switch performs operation and maintenance using topology visualization on front-end, transmission and back-end storage devices that are in the security system and IT system. With its full metal design, the switch has great heat dissipation and can operate in temperatures ranging -10°C to 55°C. It offers EMC and has protection against overvoltage, overcurrent, static electricity, lightning strikes, pulses and other types of interference. For the PoE series Smart Managed Switch, power is supplied up to 250 meters away. The orange port supplies up to 60 W and the red port provides up to 90 W. Also, link aggregation and STP are available on select models to ensure the network remains stable. The switch can be used in small and medium-sized businesses such as supermarkets, offices, restaurants, cafés and hotels.

#### **Functions**

#### Cloud Management

Devices can be managed through the DoLynk Care app and performs real-time monitoring of the network. The app also displays the status of devices, triggers alarms for errors in real time and sends notifications.

#### **Network Topology Management**

Supports the LLDP protocol and is able to generate and display the network topology, so that you can quickly identify issues, and perform operation and maintenance remotely on devices that are in the topology.

### Long Distance PoE

The transmission distance of a PoE port can be up to 250 m, meeting the requirement of wired transmission (bandwidth reduced to 10 Mbps).

- Meets the requirements of IEEE802.3,IEEE802.3u,IEEE802.3x,IEEE802.3ab standards.
- Meets the requirements of IEEE802.3af, IEEE802.3at, Hi-PoE power supply standards.
- Manages PoE power consumption and PoE power on/off. Supports Intelligent PoE.
- A wide operating temperature range and a full metal casing that is fully-enclosed and dust-proof.

#### PoE Watchdog

Adopts the innovative PoE Watchdog. It enables the switch to automatically detect port status and restart the failed ports to recover connection in case of IPC connection exception. This enables intelligent operation and maintenance management in its true sense and effectively reduces manual maintenance costs.

#### **Loop Protection**

When a loop is detected, the loop alarm will be triggered and the elimination mechanism will activate to prevent broadcast storms from occurring.

## Hi-PoE 60W (Orange Port)

In addition to the IEEE802.3af and IEEE802.3at standards, orange port also supports a maximum power output of 60W for powering high-power devices.

#### Scene

Suitable for scenes such as houses, factories and offices.

| Technical Specification             |  |  |  |
|-------------------------------------|--|--|--|
| Basic                               |  |  |  |
| Switching Capacity                  | 4.8 Gbps   |  |  |
| Packet Forwarding Rate              | 3.57 Mpps  |  |  |
| Description of Function<br>Slots    | Port 1-4: 4 × RJ-45 10/100 Mbps (PoE); Port 5-6: 2 × RJ-45 10/100/1000 Mbps (uplink)                 |  |  |
| PoE Power                           | Port 1 ≤ 60 W, Port 2-8 ≤ 30 W, total ≤ 60 W   |  |  |
| Layer                               | Layer 2  |  |  |
| Management Type                     | Yes  |  |  |
| Operating Temperature               | −10 °C to +55 °C (+14 °F to +131 °F)   |  |  |
| Operating Humidity                  | 5% –95% (RH), non-condensing   |  |  |
| Power Consumption                   | Idling: ≤3 W;<br>Full load: 65 W   |  |  |
| Power Supply                        | External power supply: 53 VDC, 1.226 A   |  |  |
| Statics Protection                  | Air discharge: 8 kV; Contact discharge: 6 kV   |  |  |
| Lightning Protection                | Common mode: 4 kV; Differential mode: 2 kV   |  |  |
