

# DH-IPC-HF7442F 4MP BOX WizMind Network Camera

Launched by Dahua Technology, Dahua WizMind is a full portfolio of solutions composed of project-oriented products including IPC, NVR, PTZ, XVR, Thermal and software platform which adopts industry-leading deep learning algorithms. Focusing on customer's requirements, WizMind provides precise, reliable and comprehensive AI solutions for verticals.

#### Series Overview

With advanced deep learning algorithm, Dahua WizMind 7 Series network camera supports various intelligent functions and satisfies the requirements in different scenes. The camera can accurately recognize person, vehicle, and non-motor vehicle, face, ANPR, and liveness. This series camera has ultra starlight night version effect, and works with ultra-low stream. It supports dust-proof function, waterproof function and vandal-proof function, complying with the standards of IP67 and IK10 (Supported by some select models).

## Functions

## **Face Detection**

Dahua Face Detection technology can detect the face in the image. With deep learning algorithm, the technology supports detecting, tracking, capturing and selecting the best face image, and then outputs face snapshot.

## **People Counting**

With deep learning algorithm, Dahua People Counting technology can track and process moving human body targets to realize the accurate statistics of enter No., leave No., and In Area No. Working with management platform, it outputs reports to meet your requirements.

#### Face and Human Body Association

With deep learning algorithm, Dahua Face and Human Body Association technology detects face and human body of one person, captures them separatedly, selects the best image, and then associates them.

## **Face Recognition**

Dahua Face Recognition technology extracts the features of captured faces and compares them with that in face database to recognize the person identity.

- $\cdot$  4MP, 1/1.8" CMOS image sensor, low illuminance, high image definition
- $\cdot$  Max outputs 4MP (2688  $\times$  1520) @50 fps/60 fps
- $\cdot$  H.264&H.265 coding, high compression ration  $\cdot$  Wide dynamic, day/ night, 3D NR, AWB, HLC, BLC
- · ROI, SVC, SMART H.264+/H.265+, flexible coding, applicable to various bandwidth and storage environments
- With deep learning algorithm, it supports people counting, face detec tion, perimeter protection etc
- · Alarm: 2 in, 2 out; audio: 2 in, 1 out; RS-485; BNC; supports max. 256 G SD card
- · 24V AC/PoE/12V DC power support
- · Five streams for three-channel HD video
- $\cdot$  12V DC power output, max. current 165mA , easy for installation

## Advanced Customer Counter

With Advanced Customer Counter, the camera can remove staff and returning customers from your store traffic count. It enables managers to build a full picture of the number and groups of customers.

## **PPE Detection**

With the PPE Detection function, the camera can detect attributes including face masks, helmets, glasses, safety vests, and the color of tops and bottoms, and determine whether PPE requirements are met. Match attributes alarm or mismatch attributes alarm can be triggered according to the alarm settings.

## Video Metadata

With deep learning algorithm, Dahua Video Metadata technology can detect, track, capture vehicle, non-motor vehicle and people, and select the best images, and extract attributes. The camera can count targets by directions (A>B, B>A, or A<>B), and export the report.

## ePoE

Dahua ePoE technology provides a new way to accomplish long distance transmission between IP camera and network switch. It allows more flexible surveillance system design, improves reliability and saves construction and wiring cost.

## **Perimeter Protection**

With deep learning algorithm, Dahua Perimeter Protection technology can recognize human and vehicle accurately. In restricted area (such as pedestrian area and vehicle area), the false alarms of intelligent detection based on target type (such as tripwire, intrusion, fast moving, parking detection, loitering detection and gathering detection) are largely reduced.

## **Privacy Protection**

Dahua Privacy Protection technology can mask the detected face and human body to protect the privacy of some special targets.

## **Cyber Security**

Dahua network camera is equipped with a series of key security technologies, such as security authentication and authorization, access control, trusted protection, encrypted transmission, and encrypted storage, which improve its security defense and data protection, and prevent malicious programs from invading the device.

## ANPR

With high-performance GPU chip, deep learning algorithm, and lots of sample training learning, Dahua ANPR technology can automatically collect and recognize the vehicle information, including license plate, logo, vehicle type, and vehicle color.

## **Technical Specification**

## Camera

| Camera                     |  |  |
|----------------------------|--|--|
| Image Sensor               | 1/1.8" 4Megapixel progressive CMOS   |  |
| Effective Pixels           | 2688 (H) × 1520 (V)  |  |
| ROM                        | 4 GB   |  |
| RAM                        | 2 GB   |  |
| Scanning System            | Progressive  |  |
| Electronic Shutter Speed   | Auto/Manual 1/3 s-1/100000 s   |  |
| Min. Illumination          | 0.001 Lux@F1.5 (Color, 30IRE)<br>0.0002 Lux@F1.5 (B/W, 30IRE)  |  |
| S/N Ratio                  | > 56 dB  |  |
| Lens                       |  |  |
| Mount Type                 | C/CS   |  |
| Smart event                |  |  |
| IVS                        | Abandoned object, moving object  |  |
| Professional, intelligent  |  |  |
| IVS (Perimeter Protection) | Tripwire, intrusion, fast moving (the three functions<br>support the classification and accurate detection<br>of vehicle and human); parking detection, loitering<br>detection, and people gathering.  |  |
| Face Detection             | Face detection, track, priority, snapshot,Upload<br>Optimized snapshot picture; face<br>enhancement, face exposure, face attribute extract,<br>6 attributes and 8 expressions: Gender, age, glasses,<br>expressions (anger, sadness, disgust, fear, surprise,<br>calm, happiness and confusion), Mouth mask, beard;<br>Face matting setting: face, single inch photo Three<br>snapshot;<br>methods: real-time snapshot, priority snapshot, quality<br>priority;<br>Face angle filter Priority time setting;<br>Support Duration Optimal,Non-living Filtering;  |  |
| Face Recognition           | There are two models: General mode and counting<br>mode.<br>General mode: Face detection; track; snapshot;<br>snapshot optimization; face enhancement; face<br>exposure; face attribute extraction including 6<br>attributes (gender, age, glasses, expressions, mask<br>and beard) and 8 expressions (anger, calm, happiness,<br>sadness, disgust, surprise, confusion and fear);<br>supports up to 5 face databases with 50,000 face<br>pictures in total; supports non-living filtering<br>Counting mode: Offers advanced customer counter,<br>filtering of specified face database, and exporting of<br>reports before and after removing duplicate faces. |  |

| Face and Body DetectionThere are two modes: General mode and PPE<br>Detection.<br>General mode: Supports enabling face detection<br>human detection at the same time, and alarms ca<br>triggered.<br>PPE Detection: Supports PPE detection, can detec<br>attributes including face mask, safety helmet, gla<br>and safety vest, top color and bottom color, and<br>determine whether PPE requirements are met. Al<br>can be triggered according to the alarm settings.ANPRANPR, track, priority, snapshot<br>Vehicle attributes: License plate, vehicle type, vehicle | an be<br>ct<br>isses, |
