

# DH-SD3A405-GN-PV1

4MP IR Light Network PTZ Camera

### **System Overview**

The Active Defense series of small PTZ cameras raises the bar on performance. After detecting an intrusion, it triggers sound and light alarms, and then instantly relays vital information on the intrusion to the mobile client, keeping you informed no matter where you are. It supports two-way talk, allowing you to communicate with people in front of the camera in real time. It also uses IR to present vivid images in black and white for nighttime monitoring.

### **Functions**

### IVS

With advanced video algorithm, Dahua IVS technology supports intelligent functions, such as tripwire and intrusion.

### Wide Dynamic Range

The camera produces vivid images, even in high-contrast lighting conditions, by using industry-leading wide dynamic range (WDR) technology. For scenes that quickly alternate between bright and low lighting, WDR adjusts to fully capture both the bright and dark areas of a scene, producing superior quality videos.

### **Red/Blue Light Warning**

For the active deterrence of intrusions and their intervention, a sound alarm and a red and blue light alarm are triggered when a perimeter breech occurs. For the sound alarm, multiple audio files are available for selection, along with the option to import your own customized audios.

- · 1/3" 4Megapixel CMOS
- $\cdot$  IR distance up to 30 m
- · H.265 Encoding
- · PoE
- · Max. 25/30 fps@4M
- $\cdot$  IVS

### Smart H.265+

Smart H.265+ is the optimized implementation of the H.265 codec that uses a scene-adaptive encoding strategy, dynamic GOP, dynamic ROI, a flexible multi-frame reference structure and intelligent noise reduction to deliver high-quality videos without straining the network. Smart H.265+ technology outranks standard H.265 video compression, reducing bit rate and storage requirements by up to 70%.

# Scene

It is suitable for families, fish ponds, orchards, rural courtyards, small factories, supermarkets and other places.
