

# EACH SERIES: NEW DEFINITION OF 2-WIRE SYSTEM

Hybrid video intercom kit for **villa scenario**

Extensibility

Accessibility

Convenience

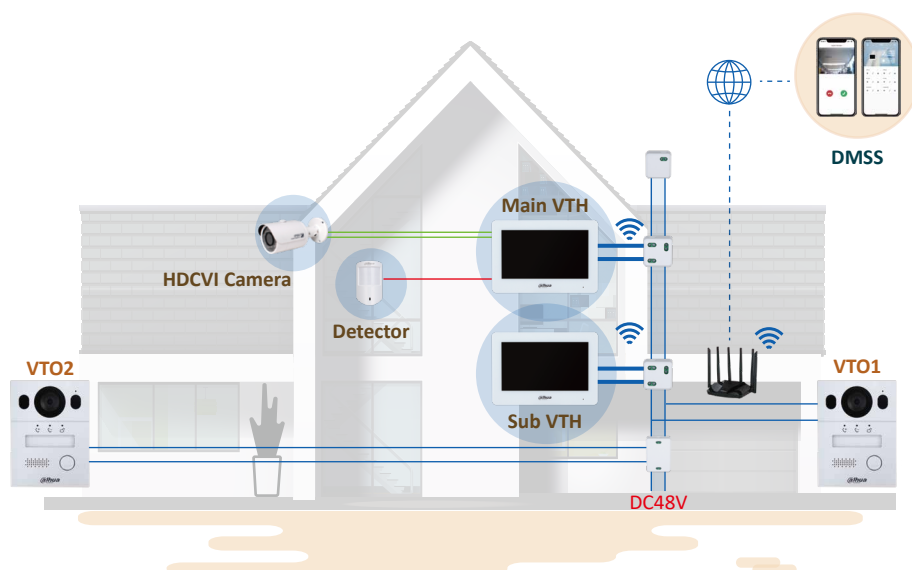

HD Video

## Highlights

### System

- **HD Video:** 2MP CMOS WDR camera provides better experience compared to traditional analog system.
- **Transmission Distance:** 200m max from door station to indoor monitor, enabling quick response at every corner of the house.
- **Network Access:** Wi-Fi connection enabled for the indoor monitor.
- **Plug & Play:** Simple configuration and preview without delay.

### Function

#### Digital Experience

User-friendly interfaces with card-based metaphors allow users to communicate effectively.

#### CCTV Integration

Supports HDCVI cameras, providing instant, low loss and reliable surveillance service.

#### Alarm Integration

Supports wired alarm detectors, providing safe living experience with timely and accurate alerts.

#### Remote Control

Remote intercom, monitoring and door release through the DMSS mobile app.

## Recommended Products

#### 2-wire Villa Door Station VTO2003F

- 2MP, CMOS
- IP65, IK07
- Aluminum
- Surface & Flush
- Hybrid System
- Powered by 2-wire controller

#### 2-wire Wi-Fi Indoor Monitor VTH5123H-W

- 7", Capacitive, 1024x600
- Micro SD, Max 64GB
- CVI video decoding
- Surface
- Hybrid System
- Powered by 2-wire controller

#### 2-wire Controller VTNC1003C

- 2 x 2-wire device port
- Isolates the power supply and signal to reduce signal loss during transmission.

### Accessories

#### VTM114

- Mounted box
- Flush

#### VTM115

- Mounted box
- Surface

#### VTM05R

- Mounted rain cover
- Surface
- Sold separately

#### All-in-One Box

- VTO2003F+VTH5123H-W+VTNC1003C+VTM114/VTM115
