STABLE TRANSMISSION

Dahua SOHO Network Switches

Plug & Play
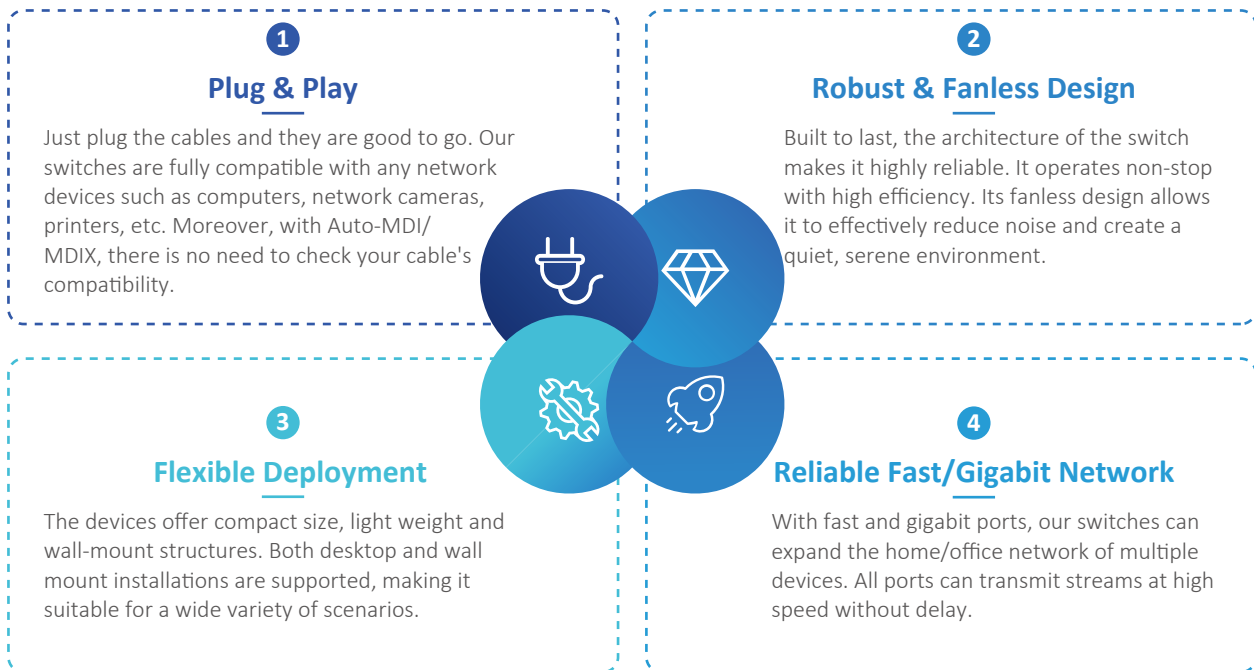

Robust & Fanless Design

Flexible Deployment

Reliable Fast/ Gigabit Network

Highlights

1

Plug & Play

Just plug the cables and they are good to go. Our switches are fully compatible with any network devices such as computers, network cameras, printers, etc. Moreover, with Auto-MDI/MDIX, there is no need to check your cable's compatibility.

2

Robust & Fanless Design

Built to last, the architecture of the switch makes it highly reliable. It operates non-stop with high efficiency. Its fanless design allows it to effectively reduce noise and create a quiet, serene environment.

3

Flexible Deployment

The devices offer compact size, light weight and wall-mount structures. Both desktop and wall mount installations are supported, making it suitable for a wide variety of scenarios.

4

Reliable Fast/Gigabit Network

With fast and gigabit ports, our switches can expand the home/office network of multiple devices. All ports can transmit streams at high speed without delay.

Application Scenarios

Home

Dormitory

Meeting Room
