

An Ideal Solution For Every Factory

Dahua SMB factory security solution

Due to various factors such as semi-closed factory management, complicated surrounding environment and personnel mobility, accidents occur frequently in a factory.

The Dahua Smart factory Solution offers video surveillance, alarm system, perimeter protection, access control, fire detection and a one-stop management system, enabling a safer factory environment and improving management efficiency.

Efficient

An Ideal Solution For Every Factory

Dahua SMB factory security solution

Solution Highlights

Secure

- Provides early warning for unauthorized entry of people or vehicles.
- Offers early fire detection by accurately monitoring temperature variation via thermal camera.

Efficient

- Improves staff passing efficiency with facial recognition time of less than 0.2 seconds.
- Reduces vehicle entry/exit time with ANPR technology.

Application Scenarios

Perimeter Fence

Entrance & Exit

Warehouse

Public Area

CCTV Center

Concierge
