Shield For School

Dahua SMB school solution

The safety of students and teachers is always the first concern in implementing a school surveillance solution.The Dahua School Solution is equipped with advanced AI algorithm and deep learning technology that can help prevent safety hazards in advance, thus creating a safer school. In addition, Dahua School Solution also offers an in-house one-stop management platform and supports timely alarm and smart search for videos, simplifying CCTV operation and improving management efficiency.
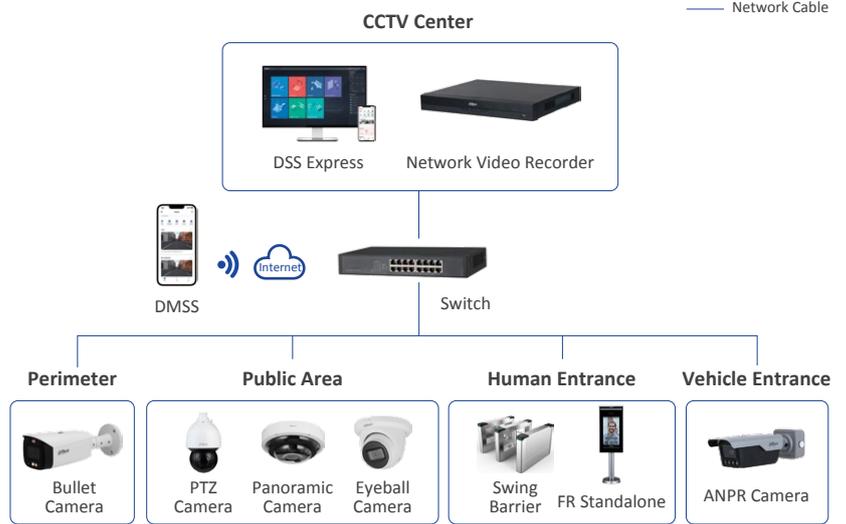

Secure

Efficient

Solution Highlights

Secure

• Offers entrance and perimeter protection for a safer school environment.

• Provides early warning of unauthorized person and vehicle access via facial recognition and ANPR.

Efficient

• Supports intrusion detection rate of up to 95%.

• Features a one-stop surveillance solution for the entire campus.
