

# For A Safer Guest Experience

## Dahua SMB hotel solution

A hotel serves as a place where tourists and travelers can temporarily stay and relax. It is a hotel's duty to provide every guest with a safe and comfortable environment. Compared with other similar establishments, a hotel often has strict and complicated entrance & exit, with large flow of people and different groups of personnel, making supervision difficult and challenging. Our solution is committed to improving the safety and management efficiency of the hotel in order to enhance guest experience through visual supervision and comprehensive coverage.
