

MORE SECURE, MORE EFFICIENCY, MORE PROFITS

Dahua Smart Bus Solution

Safe Driving

More Efficiency

Reduce Cost

Features

Passenger Counting

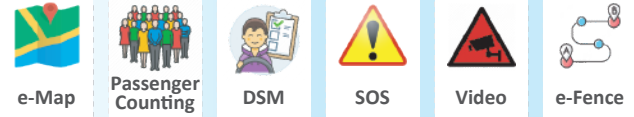

Passenger counting cameras calculate the number of passengers getting on/off bus at each stop, providing data for scheduling optimization.

Driver Behavior Monitor

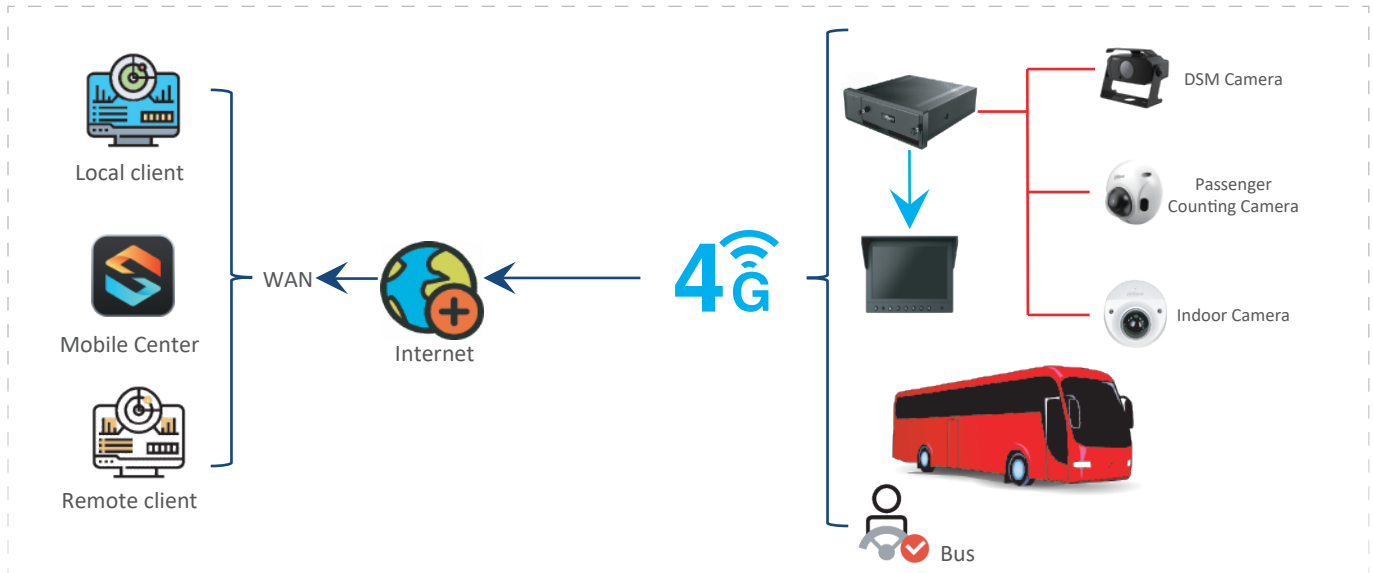

Powered by DSM(driver status monitor), the driver's irregular behaviors (yawn, close eyes, smoke, etc) can be detected to trigger alarm, enhance to reduce accidents.

Bus Route Management

The e-fence can be used to regulate the driver to follow the designated bus routes, otherwise it will trigger alarm to remind the driver in the control center.

Topology

Application Scenarios

Public Bus

Metro Bus

Intercity Bus

Tourist Bus
